The Fighters Want To Vote

After months of wrangling over the soldier vote problem, the two houses of Congress have finally reached a compromise which would reenfranchise our service men and women. Should apposition to the bill again be raised when Congress meets to vote on the measure, it might be well that the personal views of our lighting men be considered.

"The Stars and Stripes Weekly," published by and for our men overseas, has revealed the GI's opinion in an editorial appropriately headed "Bullets and Ballots." The Mediterranean edition of the paper took the title from a letter written by members of a single hattalion fighting in Italy and representing every section of the nation. The letter said: "The soldiers on the from want to fight, and they want to vote, . . We on the front are determined to use bullets and hallots."

Letters from other men and women in uniform pointed out that servicemen are under the same obligation to exercise the franchise

The nearer service men and women are to the lighting from, the greater appears to be their interest in voting. The Italian edition of Stars and Stripes received more mail on the issue than did the editions of the paper pinblished in North Wrica.

Mail sent to the paper indicated that service men and women are not unaware of the constiintional difficulties and the political complexities of the issue. It was pointed out that it

would not be easy to give men and women overseas the political information they would need to vote intelligently in this year's election.

Letters and statements indicate a primary concern with the right to vote for its own sake and reflect a belief that the members of an American citizen army, even if outside the continefital limits of the United States, retain the basic rights and privileges of citizenship. The writers do not believe they are asking Congress for any special privilege. They feel they are asking for a simplé right.

Stars and Stripes concludes: "The over-all view reflected in apinions expressed to The Stars and Stripes is that men and women in uniform overseas have proved that they are good Americans and that good Americans should have a practical voting law."

We feet that politics, states' rights, and red rape should not be allowed to obscure the fundamental issue that the soldiers want to vote T. Dorsey, Maybe and the soldiers should have the opportunity. Tommy Dorsey is expected to

Diverting interlude in the game Saturday night was the parading of those gallant gals, the K-Dets, who spend an hour every Tuesday and I hursday drilling. And good they were too as Wednesday in the Y jounge of the fine will be charged for every unthey marched through the "Wildcat" in a precision that would union building. have made driller John Dallavo proud. Wearing white shirts, navy skirts and blue overseas caps, they paraded with smooth assurance. Neat in their officers uniforms were Marge Palmore, Camilla Weathers, Bettye McClanahan, Marian Yates, and Esther Nevitt.

President H. Lee Donovan looked happy, beaming with childlike joy at the girls as they executed those neat military moves. With a pride like that of a three-year-old showing off a new rattle, he turned to fans at his right and left and grinned, as if to say "Those are MY students." Comptroller Frank Peterson looked building. distantly amused.

Poor Athletic Director Bernie Shively, while racing down the basketball floor last week at a high school game, tripped and, as the Herald-Leader put it, "spanked the hardwood." Why don't columnists and newspapers squelch life's little embarrassing moments, anyhow?

1.000 is a terrific free throw average-in fact, it's perfection. And UK has, or had such a boy with such a average. That was Cravens, now in the "armed forces." He played in one game; he attempted two free throws: he made both.

Average for the team up to, and not including Saturday's game, is .637. Statistical minds please note: The Wildcats have tossed in 149 free throws in 234 attempts. Highest average is Buis, with 9 out of 10 attempts. Big Bob Brannun netted 42 out of 60 for the score of .700. Total points for Brannum, Wildcat big man, 196. Next is Tingle at 104.

Tingle leaps like a gazelle when he jumps and shoves one of those shots through the hoop. It's amazing to watch those long strides carryshim down the floor as they did in the Ohio University game. Tingle (it was hardly incidental Saturday night) was high point man with seven markers.
